Our English Class Blog

A typical school day in Thailand by Preeda

I go to school at seven o'clock in the morning, but some children go to school at six o'clock because their parents go to work very early. Every day at eight o'clock we stand still and listen to the national anthem on the radio in the playground. Then we sing the national anthem.

On Tuesday and Wednesday mornings, the teachers check that our hands are clean. They also check that our hair is short. We can't have long hair at school.

On Monday and Wednesday mornings, we do exercises in the playground, too.

Before we go into our classrooms, we take off our shoes. There are 50 students in my class. We learn maths, science, Thai language, ICT, English, art and PE. We have three lessons in the morning. Then we have lunch at eleven o'clock. I have chicken or fish and rice. We haven't got a dining room at school, because there are too many students. We eat in our classroom.

Lunch finishes at twenty-five to one. We have three more lessons in the afternoon. I go home at quarter to four, but some children go to an extra homework lesson.

Special food in Ecuador

A poem by Daniela

In March and in April,
We eat a special dish.
It's a soup called *fanesca*.
It's made with milk and fish.
It's got some pumpkin, some sweetcorn,
Some onions and some rice.
We eat it with some eggs and cheese.
I think it's very nice.

In early October,
My mother's family makes
A dish that's called *humitas*.
They're very good corn cakes.
We make them in the autumn time,
With eggs and cheese and cream.
We put them in the corn leaves.
We cook them in hot steam.

In early November,
We make traditional bread.
The bread is shaped like babies,
Iced yellow, green and red.
We drink *colada morada*.
It's a special drink
Made from strawberries and pineapple.
Delicious, don't you think?

Welcome to Seward, Alaska, the perfect place for wildlife fans. This guide has information about some of the animals in the bay. Look for them on your boat trip!

Orcas are called killer whales too. But they aren't whales – they're part of the dolphin family. We usually see orcas in family groups, called pods. A good time to see orcas is from June to September. They're black and white.

Sea otters live in groups. Sometimes there are 100 otters in one group. They're brown or black. Sea otters love swimming and they often swim on their backs.

Puffins usually live on the sea. They've got black, white and grey bodies. Their beaks are black and orange. In May, they come to the coast and make their nests. They have one chick. You can see them flying to their nests with lots of fish in their beaks.

Community hero of the week

by Mary Kelly

This week's community hero is Denise O'Brien. What are community heroes? They're people like you and me. They're heroes because they help their community. They're often brave or clever or kind. This is Denise's twenty-fifth year in the Mountain Rescue volunteers.

The Mountain Rescue volunteers

Hundreds of people walk in the Irish mountains. People love the mountains, but the mountains are sometimes dangerous. The weather is often bad. It's foggy or it snows. People sometimes have problems on the mountains. The Mountain Rescue volunteers are always ready to help.

Denise: a hero on the mountain

Denise works in an office. When there's a problem on the mountains, she stops work. She puts on her walking boots and jacket, finds her backpack and goes to help. 'We're sometimes on the mountain for 24 hours,' she says. 'It's a long time. But that's not important. It's important to find and help people. That's why I'm a volunteer.' Well done, Denise!

The Three Brothers and the Barn

A Story from Latvia

Part 1

Once there was a farmer with three sons. The first and second sons were his favourite sons, because they were very strong. He wasn't very happy with his third son, because he wasn't very strong.

One day, the farmer said to his sons, 'Help me build a barn for our farm.'

At the end of the day, the barn was finished.

'The barn is very big,' said the first son.

'What can we put in it?'

'That's a good question!' said the farmer. 'The son who can fill this barn in one day can have it.'

The first son was very happy. 'I've got an idea,' he said to himself. 'We've got a very big horse on the farm.'

I can put the horse in the barn.'

But when the horse was in the barn, the barn wasn't full.

'You can't have the barn!' said the farmer.

The next morning, it was the second son's turn.

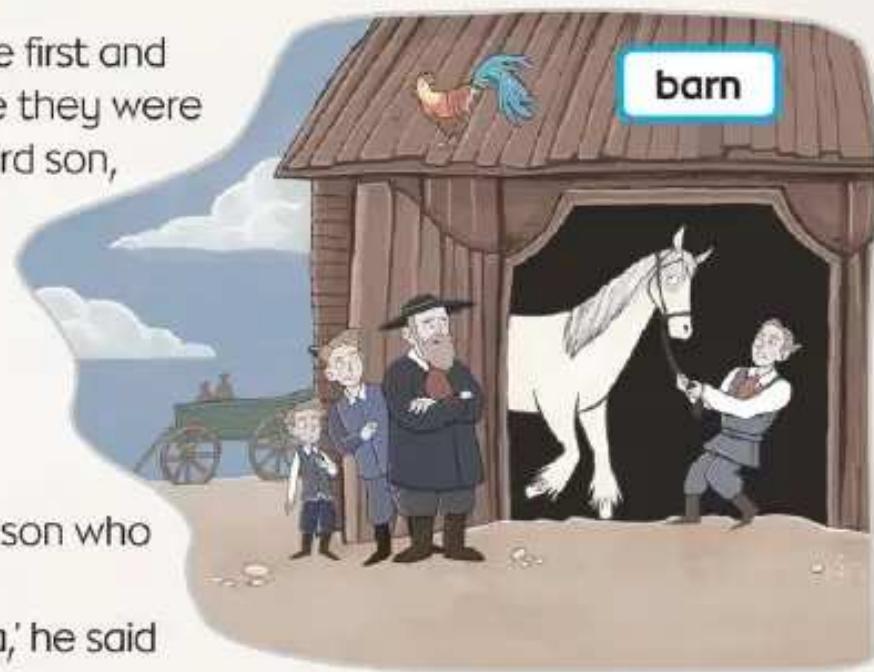

The second son was very happy.

'I've got an idea,' he said to himself. 'There's lots of straw on the farm. I can put the straw in the barn.'

But when the straw was in the barn, the barn wasn't full.

'No!' said the farmer. 'You can't have the barn.'

Subject: Castle in Slovenia

Hi Tess,

Thanks for your email. I'm very happy that you can come and visit me in Slovenia in the summer!

You asked me about Predjama Castle. Yes, I know it very well! Predjama is only eleven kilometres away from my town, Postojna. It's in the countryside and there are lots of woods and fields there.

Predjama Castle is more than 800 years old. In the past, important people lived in the castle. Today, it's a museum.

The castle is special because it's in a cave. Lots of bats live in the cave. (Do you like bats?) You can visit the cave in the summer, but you can't visit between October and April because the bats are sleeping then.

There's also a secret path through the castle. My sister climbed the path when we visited the castle last year.

In July, there's a party at Predjama Castle. There's music and dancing and the castle is open until twelve o'clock at night. After the party, there's a festival. People wear costumes and there are games and activities.

We can go to Predjama Castle when you come to visit!

Best wishes,

Nika
