An amazing city

London is a very big city today. It was very big in 1965 too. My grandpa was a boy in London then.

In 1965 London was an exciting place for fashion and music. The fashion industry was new then and there were a lot of small clothes shops. Pop music was also new, and bands like The Beatles were very popular. There were a lot of small cafés. The theatres were busy, and the museums were full of people.

Today some things about London are different. Now there are more big shops and shopping centres. There are many large cafés. The theatres have more music shows today like *Mamma Mia*. My cool places

My number one cool place this week is a city. It's Liverpool! People often think Liverpool is very busy and dirty. Well, it's busy but it's cleaner than you think. It's also very interesting and you can do some interesting things.

I went there with my family last weekend to visit my Uncle Robert. He's a police officer so he knows the city very well. He took us to China Town for dinner on Friday evening. On Saturday morning we went to the Museum of Liverpool. It's modern and very cool. Here's an interesting fact. Only London has more museums than Liverpool. Saturday afternoon was even better. We saw a football game at Liverpool FC's stadium, Anfield Road. Wow!

Before we came home on Sunday, I went for a long walk with dad and my uncle ... on the beach! Mum and my sister didn't come. They went shopping in Liverpool One, a very big shopping centre. Liverpool is awesome.

American National Parks

Yellowstone National Park is the first national park in the world. You can do a lot of exciting things there. You can sail on the rivers and swim in the lakes. But be careful about some hot springs. They are colourful lakes with hot water. In some hot springs the water is too hot to swim. Sometimes this hot water goes high up in the air and you can watch exciting geysers. Lots of people take selfies next to them. You can also take photos of beautiful waterfalls – you only need to walk in the canyon.

Many people visit the **Glacier National Park** to see one of its 25 glaciers. A glacier is moving ice. The park is also popular because of its mountains. The peaks – the tops of the mountains – are high. Climbing is dangerous so it's better to look and take photos or try to find some caves in the mountains! There are lakes and rivers so you can sail a boat. You can ride horses with your family and in winter you can go skiing.

Flying machines

- 2 Read the text. Find and underline the words in Exercise 1.

A short history of flying

The first flying machines were kites. The Chinese made them about 1500 years ago. They were usually triangle-shaped.

Then, there was the hot-air balloon. A fire under the balloon made the air hot. In November 1783 two men flew a hot-air balloon in France for about 8 km.

But people wanted to fly like a bird so they made gliders – flying machines with very big wings. In the 1890s they flew about 100 or 150 metres.

People wanted to fly a longer way so in 1902 in America the Wright brothers made a biplane. It had two long wings. One wing was at the top and one was under it. And a year later, they made a biplane with an engine – the Wright Flyer. Biplanes with engines flew a long way but people needed bigger planes.

This happened in the 1950s. The British, Russians and Americans made planes for many people. They had big engines in or under the wings and they flew a very long way.
